GRADUATE COMMITTEES

2018 – present Victoria Starnes, Mississippi State University
M.S. Student
Research: *Evaluating the fish assemblage and fishery of Bluff Lake: integrating fishery objectives with Paddlefish and bird management objectives to evaluate water level management decisions*

UNDERGRADUATE STUDENT MENTEES

| | |
|--------------|--|
| 2018-present | Rick Campbell, Mississippi State University Research: <i>An overview of passive integrated transponder (PIT) tag feasibility and a new monitoring technique for Frecklebelly Madtom</i> |
| 2018-present | Bayley Wilmoth, Mississippi State University Research: <i>Utilizing passive integrated transponder (PIT) tag technology to improve studies of small lamprey ecology</i> |
| 2018 | Ashley Shannon, Mississippi State University Research: <i>Debunking angler lore: can the Farmer's Almanac really forecast catch rates?</i> |
| 2015-present | Miranda Huang, Whitman College Research: <i>Habitat partitioning of crayfish common to eastern South Dakota</i> |
| 2014-2017 | Jenna Haag, South Dakota State University Research: <i>Unequal ranging abilities of prairie fishes: vertical barriers</i> |
| 2015-2016 | Joshua Hoekwater, South Dakota State University Research: <i>Improving surgical techniques used to implant PIT tags into small-bodied fishes with cyanoacrylate sutures</i> |
| 2015-2016 | Crystal Garcia, South Dakota State University Research: <i>Seasonality, floods and droughts structure larval fish assemblages in prairie streams</i> |
| 2015-2016 | Paige Ellensohn, South Dakota State University |

2013-2015 Research: *Unequal ranging abilities of prairie fishes: horizontal barriers*
 Morgan Kauth, South Dakota State University
 Research: *Effectiveness of single-pass backpack electrofishing in Great Plains streams*
