

David A. Schumann

Postdoctoral Research Associate

PROFESSIONAL ADDRESS

Department of Biology

River Studies Center

University of Wisconsin-La Crosse

Website: <https://daschumann.github.io>

EDUCATION

May 2017	Ph.D. – South Dakota State University Wildlife and Fisheries Sciences Dissertation: <i>Measuring aquatic organism responses to stream restoration: does the field of dreams really exist?</i>
Dec. 2012	M.S. – University of Nebraska at Kearney Biology Thesis: <i>Experimental repatriation of Plains Topminnow, Fundulus sciadicus, for species conservation and evaluation of potential limits to persistence in Nebraska</i>
Dec. 2009	B.S. – University of Wisconsin-Stevens Point Fisheries and Water Resources

PROFESSIONAL EXPERIENCE

2019-present	Assistant Professor Department of Biology River Studies Center University of Wisconsin-La Crosse
2017-2019	Postdoctoral Research Associate Department of Wildlife, Fisheries, and Aquaculture Mississippi State University Postdoc research website: https://mcolvin.github.io/SSA-DST/
2013-2017	Graduate Research Assistant Department of Natural Resource Management South Dakota State University
2014-2015	Graduate Teaching Assistant Department of Natural Resource Management South Dakota State University
2010-2012	Graduate Research Assistant Department of Biology University of Nebraska at Kearney

GRADUATE COMMITTEES

2019 – present	Ali Chalberg, University of Wisconsin-La Crosse M.S. Student Research: <i>Refining surface water designations of coldwater streams in the Driftless Region, Northeast Iowa</i>
2019 – present	Kristina Pechacek, University of Wisconsin-La Crosse M.S. Student Research: <i>Habitat use, thermal distribution, and diet of Brook Trout (Salvelinus fontinalis) as affected by interspecific competition with non-native Brown Trout (Salmo trutta) in the Driftless region of southwest Wisconsin</i>
2018 – present	Victoria Starnes, Mississippi State University M.S. Student Research: <i>Evaluating the fish assemblage and fishery of Bluff Lake: integrating fishery objectives with Paddlefish and bird management objectives to evaluate water level management decisions</i>

CURRENT UNDERGRADUATE STUDENT MENTEES

2019 – present	Joe Wallner and Zach Hanson, University of Wisconsin-La Crosse Research: <i>Muskie breakout! Feasibility of using acoustic telemetry to analyze Muskellunge entrainment rates and habitat usage</i>
2019 – present	Sawyer Massie and Andrew Klabon, University of Wisconsin-La Crosse Research: <i>Effects of noise pollution on swimming behaviors of Fathead Minnow: A model fish species for biological inquiry</i>
2019 – present	Damon Trump, University of Wisconsin-La Crosse Research: <i>Density-dependent growth of age-0 Brown Trout (Salmo trutta): Searching for evidence in the hyperdense streams of the Driftless area, Wisconsin</i>
2019 – present	Freddy Ragan and Caleb Summers, University of Wisconsin-La Crosse Research: <i>Condition-dependent competition of Brook Trout and Brown Trout: Implications for harvestable Brook Trout populations</i>
2018 – present	Rick Campbell, Mississippi State University Research: <i>An overview of passive integrated transponder (PIT) tag feasibility and a new monitoring technique for Frecklebelly Madtom</i>

PROFESSIONAL WORKSHOPS

1. Colvin, M.E., and D.A. Schumann. 2018. Structured decision making and developing conservation planning tools to mobilize State Wildlife Action Plans. Nebraska Game and Parks Commission, Heritage Program. Lincoln, Nebraska.

PEER-REVIEWED PUBLICATIONS (undergraduate and graduate co-authors underlined) - 15

1. Schumann, D.A., M.E. Colvin, L.E. Miranda, and D.T. Jones-Farrand. In press. Occurrence and co-occurrence patterns of gar in river-floodplain habitats: Leveraging species interactions to benefit distributional models.
2. Kauth, M.J., D.A. Schumann, K.N. Bertrand, and W.W. Hoback. 2019. Effectiveness of single-pass backpack electrofishing to sample fish in small prairie streams. *The Prairie Naturalist* 51:17-24.
3. Wagner, M.D., D.A. Schumann, and B.J. Smith. 2019. Gear effectiveness and size selectivity for five species of madtoms in Mississippi rivers. *Journal of Applied Ichthyology* 00:1-10.
4. Schumann, D.A., J.M. Haag, P.C. Ellensohn, J.D. Redmond, and K.N.B. Graeb. 2019. Movement of prairie fishes in a fragmented riverscape: ecosystem processes risk being ratcheted downstream. *Aquatic Conservation: Marine and Freshwater Ecosystems* 29(2):235-244.
5. Schumann, D.A., C.S. Uphoff, C.W. Schoenebeck, and K.N.B. Graeb. 2018. Incorporation of carbon and nitrogen isotopes in age-0 Walleye (*Sander vitreus*) tissues following a laboratory diet switch experiment. *Canadian Journal of Fisheries and Aquatic Sciences* 75:497-505.
6. Garcia, C., D.A. Schumann, J. Howell, B.D.S. Graeb, K.N. Bertrand, and R.A. Klumb. 2018. Seasonality, floods and droughts structure larval fish assemblages in prairie rivers. *Ecology of Freshwater Fish* 27:389-397.

PUBLICATIONS IN REVIEW (undergraduate and graduate co-authors underlined) - **THREE**

1. Schumann, D.A., K.N. Bertrand, J. Pfrimmer, J.D. Stafford, and S.R. Chipps. In review. The response of aquatic ecosystems to grassland conservation: can streams of dreams exist in a degraded riverscape?
2. Schumann, D.A., M.E. Colvin, M.D. Wagner, and D.T. Jones-Farrand. In review. An interactive online platform to investigate and assess biodiversity data, species distributions, and patterns of assemblage structure
3. Lucchesi, D.O., D.A. Schumann, and S.R. Chipps. In review. Effects of seasonal hypoxia on macroinvertebrate communities in a small reservoir.

POPULAR ARTICLES (undergraduate and graduate co-authors underlined) – **TWO**

1. Schumann, D.A., C.D. Hill, C. Kaiser, B.D.S. Graeb, and D.W. Willis. In press. Remember the pumpkinseed: Using high density smallmouth bass to our advantage in northern ponds. *Pond Boss*
2. Schumann, D.A., and K.D. Koupal. 2012. Plains topminnow in Nebraska. *Central Loess Hills Newsletter* 4(1):2.

EXTRAMURAL GRANTS AWARDED – SUM \$329,153

1. Schumann, D.A. and D. Aloisi. 2020. Student internships with the U.S. Fish and Wildlife Service. U.S. Fish and Wildlife Service, Genoa National Fish Hatchery. (\$22,920)
2. Schumann, D.A., M.E. Colvin, and K.O. Evans. 2019. Integrating conservation planning tools to develop a transparent conservation blueprint for aquatic species in the southeastern United States. U.S. Fish and Wildlife Service Region 4 Science Applications. (\$181,878)
3. Colvin, M.E., D.A. Schumann, S. Miranda, and J.B. Davis. 2018. Evaluating the fish assemblage and fisheries of Bluff Lake and integrating fishery objectives with Paddlefish

- and bird management objectives to evaluate water level management decisions. Noxubee National Wildlife Refuge. (\$115,056)
4. Schumann, D.A., and M.E. Colvin. 2018. Evaluating Southern Brook Lamprey movement and biology. Mississippi State University, College of Forest Resources Undergraduate Research Scholars Program. (\$3,000)
 5. Schumann, D.A. 2015. Microhabitat affinities of sensitive prairie fishes in South Dakota: towards precision stream restoration and management. South Dakota State University, Department of Natural Resource Management. (\$1,000)
 6. Schumann, D.A. 2015. Fish distribution, relative abundance, and habitat associations in never sampled James River Watersheds. South Dakota Department of Game, Fish and Parks, Wildlife Division. (\$4,724)
 7. Schumann, D.A., and W.W. Hoback. 2012. Long-term alterations to the fish community at a small Nebraska stream. University of Nebraska at Kearney, Biology Department. (\$575)

SUBMITTED EXTRAMURAL GRANTS

1. Schumann, D.A., G. Hansen, and C.W. Schoenebeck. (In review). Larval fishes as indicators or ecological change. Legislative-Citizen Commission on Minnesota Resources - Minnesota's Environment and Natural Resources Trust Fund. (\$321,353)
2. Schumann, D.A., M.E. Colvin, and K.O. Evans. 2018 (Not awarded). Integrating conservation planning tools to develop a transparent conservation blueprint for aquatic species in the southeastern United States. U.S. Fish and Wildlife Service Region 4 Science Applications. (\$85,950)
3. Bertrand, K.N., D.A. Schumann, C.A. Pasbrig, B.D.S. Graeb, M. Gonda, and J. Gonzalez. 2017 (Not awarded). Stream habitat for nongame prairie fishes: evaluating watershed restoration and network connectivity for Topeka Shiner (*Notropis topeka*) genetic structure, microhabitat use, and home range size. Great Plains Landscape Conservation Cooperative. (\$893,625)
4. Schumann, D.A., and M.E. Colvin. 2018 (Not awarded). Utilizing passive integrated transponder (PIT) tag technology to improve studies of young lamprey ecology. The North American Native Fishes Association Conservation Research Grant. (\$900).
5. Schumann, D.A., and K.N. Bertrand. 2015 (Not awarded). The effect of decreased turbidity in the Missouri River on piscivorous Pallid Sturgeon foraging and prey selection, American Society of Ichthyologists and Herpetologists – Howard McCarley Student Research Award. (\$850)

TECHNICAL REPORTS - EIGHT

1. Wagner, M.D., S. Barrett, J. Schaefer, and D.A. Schumann. 2019. An assessment of Pearl Darter range and population connectivity in the Pascagoula River. Final Report, Jackson, Mississippi.

2. Lucchesi, D.O., S.R. Chipps, and D.A. Schumann. 2019. Effects of hypoxic conditions on macroinvertebrate communities in a South Dakota small impoundment, Lake Alvin. South Dakota Game, Fish & Parks, Federal Aid in Sportfish Restoration, Project F-21-R, Final Report, Pierre, South Dakota.
3. Schumann, D.A., and M.E. Colvin. 2018. Multi-objective conservation planning: prototyping a strategic decision framework for aquatic species conservation (Phase 1). Gulf Coastal Plains and Ozarks Landscape Conservation Cooperative, Annual Report, Columbia, Missouri.
4. Wagner, M.D., and D.A. Schumann. 2017. Status survey and comparisons of detection probability for multiple gears for Piebald Madtom (*Noturus gladiator*). U.S. Fish and Wildlife Service, Grant Award MS-E-E16AP00186, Annual Report, Jackson, Mississippi.
5. Schumann, D.A., and K.N. Bertrand. 2016. Fish distribution, relative abundance, and habitat associations in never sampled James River watersheds. South Dakota Game, Fish and Parks, Wildlife Diversity Small Grants Program, Final Report, Pierre, South Dakota.
6. Stafford, J.D., K.N. Bertrand, D.A. Schumann, and J. Pfrimmer. 2017. Evaluation of the James River Conservation Reserve Enhancement Program in South Dakota. South Dakota Game, Fish & Parks, State Wildlife Grant, Project T-59-R1, Final Report, Pierre, South Dakota.
7. Koupal, K.D., D.A. Schumann, and W.W. Hoback. 2013. Reintroductions of plains topminnow, *Fundulus sciadicus*, for species conservation in Nebraska. Nebraska Game and Parks Commission, State Wildlife Grant, Project T2-8-R-2, Final Report, Lincoln, Nebraska.
8. Koupal, K.D., D.A. Schumann, and W.W. Hoback. 2012. Reintroductions of plains topminnow, *Fundulus sciadicus*, for species conservation in Nebraska. Nebraska Game and Parks Commission, State Wildlife Grant, Project T2-8-R-1, Final Report, Lincoln, Nebraska.
9. Schumann, D.A. 2009. Effect of starvation prior to slaughter on commercial rainbow trout yield and quality. University of Wisconsin-Stevens Point, Northern Aquaculture Demonstration Facility, Final Report, Stevens Point, Wisconsin.

INVITED PRESENTATIONS (undergraduate and graduate student co-authors underlined) - 11

1. Schumann, D.A., M.E. Colvin, L.E. Miranda, and D.T. Jones-Farrand. 2019. Multi-species occupancy models describe the occurrence patterns of gar in river-floodplain habitats *in* Advances in the Conservation and Management of North American Gars. Southern Division of the American Fisheries Society, Galveston Island, Texas.
2. Schumann, D.A., M.E. Colvin, and D.T. Jones-Farrand. 2018. Using resiliency, redundancy, and representation to assess current extinction risk for aquatic taxa in a Bayesian belief network. Species Status Assessments Framework Implementation Team of the U.S. Fish and Wildlife Service, Tucson, AZ.

3. Schumann, D.A., and M.E. Colvin. 2018. A Bayesian belief network to identify taxa in need of conservation attention in aquatic ecosystems *in* Novel and Emerging Technologies in Species Identification and Conservation. The 148th Annual Meeting of the American Fisheries Society, Atlantic City, New Jersey.
4. Colvin, M.E., and D.A. Schumann. 2018. Decision making process and tools for aquatic systems. Management Action Team Meeting, Weeks Bay Reserve Tonsmeire Resource Center, Fairhope, Alabama.

46. Schumann, D.A., C.A. Pasbrig, W.W. Hoback, J.D. Haas, and K.D. Koupal. 2010. Current plains topminnow, *Fundulus sciadicus*, distribution in Nebraska and potential threats. The Midwest Fish and Wildlife Conference, Minneapolis, Minnesota.

HONORS RECEIVED

2018	Early Career Professionals Travel Award , American Fisheries Society
2017	John E. Skinner Memorial Award , American Fisheries Society Instructor of the Year , Minnesota Percussion Association
2016	Teacher of the Year (<i>nominated</i>), Department of Natural Resource Management Instructor of the Year (<i>nominated</i>), Minnesota Percussion Association

- 2015 **David W. Willis Fisheries Research Award**, Department of Natural Resource Management
Robert A. Klumb Memorial Scholarship, Dakota Chapter of the American Fisheries Society
Joan Duffy Student Travel Award, North Central Division of the American Fisheries Society
